

Canva flyer print-ready checklist

A Canva post is not a press file until you export correctly.

FREE GROUND SHIPPING

Build

- Match the CheapFAST flyer size chip (4x6, 5.5x8.5, 8.5x11, 11x17).
- Add bleed by extending backgrounds past the page edge.
- Keep text inside a safe margin. Avoid thin white strokes.
- Export PDF Print, CMYK if Canva offers it, flatten.

Quote

- Open </print/mail/flyers/>. Live floor from \$40.34 with FREE ground.
- Do not use a social JPG as the final upload.
- Tri-fold needs Brochure Printing, not this flyer form.
